Not worth 15 euro. this game interesting to play, but please give the guide how to fix trouble that appears. I can't access multiplayer, always show connection error but I can access other website or game nicely. Love this game so much. Hoping for a sequel.. You can throw the little guys with the big guys. Real \u2665\u2665\u2665\u2665\u2665\u2665s to play against but a solid addition.. Totally worth buying. You cannot build your game solely on this, but it really helps give some towns a very distinct feel.

I got in the car and goed real fast and couldn't get out and then I done flipped it and then I could get out but the world was flipped so there os that.. A great game is hidden behind this somewhat unfortunate name.

A fairly challenging shoot'em'up, really adorable, and is among the greatest bullet hell games I've ever seen!. The description should be "game for idiots".

The only enjoyment in this game was letting the deer beat the♥♥♥♥♥♥out of the main character in the tutorial.

If this game would have the objective to beat the♥♥♥♥♥♥out of stupid hipsters instead of bears I would gladly play it but considering this game was made by hipsters then that will never happen.. Went from having ♥♥♥♥♥♥ frmes in well.. every game to, pretty much like uh.. not.. ♥♥♥♥♥♥? Like uh 60 going to 100 type of thing. Y'all know what I mean stfu lmfao<3
Would recommend. 10/10

Fun gameplay

Detailed units

Good sound effects

Secrets 16 secret units

Cons:

In the time from the closed alpha to now, Landfall has been showing off units and has redesigned everything multiple times. I don't even know how some many unit were shown off and that they will only add 10 factions with 7 units in each.
